tabs along a first side of said base sheet and ii) a second ~~plurality set~~ of at least one projection tabs along a second side of said base sheet;

b) a first frame member mounted generally horizontally over an upper end of the base sheet and having:

means for connecting with said first ~~plurality set~~ of projection tabs;

~~means for hanging said hanging store display from a ceiling or wall;~~

~~means for supporting information media having at least one sheet extending over said base sheet;~~

c) said first frame member being made from an integral piece; ~~of extruded plastic;~~

d) a second frame member mounted generally ~~horizontally under a lower end~~ along another end of the base sheet and having:

means for connecting with said second ~~plurality set~~ of projection tabs;

~~means for supporting information media having at least one sheet extending over said base sheet;~~

e) said second frame member being made from an integral piece; ~~of extruded plastic;~~ and

f) information media including information related to products or services offered for sale at the store.
